

## Section 1: Product name and Identification

### 1.1 Product Name Lemon Tea tree Oil

**Trade names and synonyms** Leptospermum petersonii oil

**EC-No:** 285-372-4

**CAS-No EU:** 85085-43-4

**CAS-No US:**

**FEMA-No:**

**REACH No:**

**1.2 Relevant identified uses of the substances or mixture** Personal Care Formulations, Fragrance industry

**1.3 Biological definition:** Leptospermum petersoni Oil is an essential oil obtained from hydrodistillation of the leaves of the plant, Leptospermum petersonii, Myrtaceae. Syn. Lemon scented Tea tree oil.

### 1.4 Details of the supplier of the safety data sheet

Company Name: Ayanda African Oils (Pty) Ltd

Company Address: Windermere Farm, Emoyeni, 3800, South Africa

Date Issued: 19/09/2019

Emergency Telephone Number: +27 353407008, +27 84 4071570, +27 84 6228811

E-mail: [mat@ayandaoils.com](mailto:mat@ayandaoils.com)

## Section 2: Hazard Identification

### 2.1.1 Classification of the substance or mixture:

Classification according to Regulation (EC) No 1272/2008	Category	
Flammable liquids	Category 3	H226
Acute oral toxicity	Category 4	H302
Aspiration toxicity	Category 1	H304
Skin irritation	Category 2	H315
Skin sensitisation	Category 1	H317
Causes serious eye damage	Category 1	H318
Acute aquatic toxicity	Category 1	H400
Chronic aquatic toxicity	Category 1	H411

## 2.1.2 - Additional information

CLP\* classification system : According to Regulation (EC) n° 1272/2008 and appendices, and the current version of IFRA\* / IOFI\* Labelling Manual.

Information taken from specialist publications and information in the company's possession is also taken into account. Other hazards :See the recommendations concerning the storage of classified products .

For the full text of risk phrases, hazard classes and categories, and H and EUH hazard statements, see section 16.

## 2.2 Label elements (EC 1272/2008):

### Hazardous pictogram(s)

GHS07

GHS08

GHS09

GHS02

**Hazard Statements**

- H226 - Flammable liquid and vapour
- H302 - Harmful if swallowed
- H304 - May be fatal if swallowed and enters airways
- H315 - Causes skin irritation
- H317 – May cause an allergic skin reaction
- H318 - Causes serious eye damage
- H400 – Very toxic to aquatic life
- H411 – Toxic to aquatic life with long lasting effects

**Signal word**

Danger

**Precautionary statements**

- P273 - Avoid release to the environment
- P270 - Do not eat, drink or smoke when using this product
- P301 + P312 - IF SWALLOWED: Call a POISON centre or doctor/ physician if you feel unwell
- P330 - Rinse mouth
- P264 - Wash face, hands and any exposed skin thoroughly after handling
- P332 + P313 - If skin irritation occurs: Get medical advice/ attention
- P362 - Take off contaminated clothing and wash before reuse
- P261 - Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray
- P272 - Contaminated work clothing should not be allowed out of the workplace
- P280 - Wear protective gloves/ protective clothing/ eye protection/ face protection
- P302 + P352 - IF ON SKIN: Wash with plenty of soap and water
- P333 + P313 - If skin irritation or rash occurs: Get medical advice/ attention
- P321 - Specific treatment (see supplemental first aid instructions on this label)
- P363 - Wash contaminated clothing before reuse
- P273 - Avoid release to the environment
- P301 + P310 - IF SWALLOWED: Immediately call a POISON centre or doctor/ physician
- P331 - Do NOT induce vomiting
- P405 - Store locked up
- P391 – Collect spillage
- P501 - Dispose of contents/ container to an approved waste disposal plant
- P305+P351+P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

### Section 3: Composition/Information on ingredients

Chemical name	EC-No	CAS-No	Weight percent	Classification (67/548/EEC)	GHS Classification (EC 1272/2008)	REACH Registration Number

For the full text of the Hazard Statements mentioned in this Section, See Section 16

### Section 4: First Aid measures

#### 4.1 Discription of First aid measures

##### General advice

Consult a physician. Show this safety data sheet to the doctor in attendance. Remove affected person from source of contamination.

*Eye contact:* Wash eyes by normal first aid procedures for at least 15 minutes and consult a physician

*Skin contact:* Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes

*Ingestion:* Clean mouth with water, call a POISON CENTRE or physician. If swallowed, do not induce vomiting

*Inhalation:* Inhalation may cause coughing, tightness of chest and irritation of the respiratory system. Remove person to ventilated area and follow normal first aid procedures. Perform artificial respiration if breathing has stopped

*Notes to physician:* Treat symptomatically

#### **4.2 Most important symptoms and effects, both acute and delayed**

The most important known symptoms and effects are described in labelling see section 2.2 and/or section 11

#### **4.3 Indication of any immediate medical attention and special treatment needed**

No data available

### **5. Fire-fighting measures**

#### **5.1 Extinguishing media**

*Suitable extinguishing media:* Use alcohol-resistant foam, dry chemical or carbon dioxide.

#### **5.2 Special hazards arising from the substances or mixtures**

When heated and in case of fire toxic vapours/gasses may be formed

#### **5.3 Unusual fire and Explosion Hazards**

None, material is not pyrophoric, does not react with water, not an oxygen donor, material is shock stable

#### **5.4 Advice for fire-fighters**

Cool container exposed to the flame with water fog. Fire fighters should wear positive pressure self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.

## **6. Accidental release measures**

### **6.1 Personal precautions, protective equipment and emergency procedures**

Use personal protective equipment. Avoid breathing vapours, mist or gas. Ensure adequate ventilation.

Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.

For personal protection see section 8.

### **6.2 Environmental precautions**

Prevent further leakage or spillage if safe to do so. Do not let product enter drains, water courses or onto the ground.

See Section 12 for additional Ecological Information

### **6.3 Methods and materials for containment and cleaning up**

Small spills can be wiped up with paper rags (placed in closed metal waste container). Large spill: contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Large spills can also be collected with non combustible absorbent material (e.g. sand, earth, diatomaceous earth, vermiculite) and placed in metal container for disposal according to local/National regulations (see section 13).

## **7. Handling and Storage**

### **7.1 Precautions for safe handling**

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist.

Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge. Handle in accordance with good industrial hygiene and safety practise.

Ensure adequate ventilation of the working area.

For precautions see section 2.5

### **7.2 Conditions for safe storage, including any incompatibilities**

Store in cool place, keep container tightly closed in a dry and well-ventilated place. Store away from direct sunlight and protect from freezing. Store in stainless steel container, opaque glass container or Fluorinated HDPE container.

Stabilizers : Store under a nitrogen blanket if possible.

Air and light sensitive.

Storage class (TRGS 510): Combustible liquids

### **7.3 Specific end use(s)**

Apart from the mentioned in section 1.2 no other specific uses are stipulated

## **Section 8. Exposure controls/ Personal protection**

### **8.1 Control parameters**

**Derived No Effect Level (DNEL)** No information available

**Predicted No Effect Concentration (PNEC)** No information available

### **8.2 Exposure control**

Engineering measures: Ensure adequate ventilation, especially in confined areas

*Eye protection:* Tightly fitting safety goggles

*Hand protection:* Protective gloves

*Skin and body protection:* Wear suitable protective clothing and apron

*Respiratory protection:* In cases of insufficient ventilation wear suitable respiratory equipment, otherwise none under normal use conditions

*Hygiene measures:* Handle in accordance with good industrial hygiene and safety practise

**Environmental exposure controls** The product should not be allowed to enter drains, water courses or the soil

AFRICAN OILS

## Section 9: Physical and chemical properties

### Information on basic physical and chemical properties

a) Appearance	Form: liquid Colour: clear to light yellow
b) Odour	Lemon, floral odour
c) Odour Threshold	No data available
d) pH	No data available
e) Melting point/freezingpoint	No data available
f) Initial boiling point and boiling range	No data available
g) Flash point	63 °C (closed cup)
h) Evaporation rate	No data available
i) Flammability (solid, gas)	No data available
j) Upper/lower flammability or explosive limits	No data available
k) Vapour pressure	2100 Pa
l) Vapour density	Greater than air
m) Relative density (at 20 °C)	0,898 g/cm <sup>3</sup>
n) Water solubility	insoluble
o) Partition coefficient: noctanol/water	No data available
p) Auto-ignition temperature	No data available
q) Decomposition temperature	No data available
r) Viscosity	No data available
s) Explosive properties	No data available
t) Oxidizing properties	No data available
u) Specific gravity (@ 20°C)	0.878 – 0.908
v) Refractive Index (@ 20°C)	1.461 – 1.491
w) Optical rotation (@ 20°C)	-3° to +5°

## Section 10: Stability and reactivity:

### 10.1 Reactivity

Material does not react with water. This product is shock-, vibration- and pressure-resistant under normal usage conditions. Exposure to light or heat may cause oxidation.

### 10.2 Chemical stability

Stable under normal circumstances. No significant change in composition over time if the storage conditions described in paragraph 7.2 are observed.

### 10.3 Possibility of hazardous reactions:

No data available

### 10.4 Conditions to avoid

Heat, flames and sparks.  
Exposure to air or moisture over prolonged periods

### 10.5 Incompatible materials

Strong oxidising agents, PVC

Ayanda African Oils (Pty)  
Reg No: 2017/655786/07  
VAT no: 4040281596  
Tel. Number: +27 +35 3407008

**10.6 Hazardous decomposition products** May produce toxic gases (hydrocarbons, carbon oxide) upon burning

## Section 11: Toxicological information

### Potential health effects

<i>Inhalation</i>	In high concentrations, vapours may irritate throat and respiratory system and cause coughing
<i>Eye contact</i>	Spray and vapour in the eyes may cause irritation and smarting
<i>Skin contact</i>	BEOA CHIP guidance (1997) gives hazard codes as R22 and R38
<i>Ingestion</i>	No specific health warning noted. No harmful effects expected in amounts likely to be ingested.
<i>Germ cell mutagenicity</i>	None known

### Information on toxicological effects

Acute toxicity:

LD50 Oral – Rat – 5000mg/kg

LD50 Dermal – Rabbit – 5000mg/kg

### Carcinogenicity

No significant effects or critical hazards.

### Reproductive toxicity

No significant effects or critical hazards.

Specific target organ toxicity – single exposure

*Inhalation* May cause respiratory irritation

Specific target organ toxicity – repeated exposure

No data available

## **Section 12: Ecological information**

### **Toxicity**

Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment

### **Persistence and degradability**

No data available

### **Bioaccumulative potential**

No data available

### **Mobility in soil**

No data available

### **Results of PBT and vPvB assessment**

No data available

### **Other adverse effects**

No data available

## **Section 13 Disposal considerations**

### **General information**

Small spills can be wiped up with paper rags (placed in closed metal waste container). Large spill: contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations. Large spills can also be collected with non combustible absorbent material (e.g. sand, earth, diatomaceous earth, vermiculite) and placed in metal container for disposal according to local/National regulations. This combustible material may be burned in a chemical incinerator equipped with an afterburner and scrubber. Offer surplus and non-recyclable solution to a licensed disposal company.

Do not discharge into drainage systems or watercourses, do not dispose of waste in the environment

### **Contaminated packaging**

Empty containers should be taken to an approved waste handling site for recycling or disposal

## Section 14 Transport information

### Sea (IMDG)

Proper shipping name	Extract, aromatic, Liquid
Hazardous class	3
UN/ID No	1169
Packing group	III

### Land (ADR)

Proper shipping name	Extract, aromatic, Liquid
Hazardous class	3
UN/ID No	1169
Packing group	III

### Air (IATA)

UN/ID No	1169
Proper shipping name	Extract, aromatic, Liquid
Hazardous class	3
Packing group	III

## Section 15 Regulatory information

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006

### EU DIRECTIVES

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, including amendments.

### STATUTORY INSTRUMENTS

The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (S.I 2009 No. 716).

### APPROVED CODE OF PRACTICE

Classification and Labelling of Substances and Preparations Dangerous for Supply.

### GUIDANCE NOTES

Workplace Exposure Limits EH40.

## Section 16 Other information:

### Abbreviations:

ADR/RID : Agreement on Dangerous Goods by Road / Regulations concerning the Intl Transport of Dangerous Goods by Rail

ATEX : European explosive atmospheres directive

CLP : Classification Labelling Packaging

CMR : Carcinogenic, Mutagenic, Reprotoxic
